WHAT OUR SUCCESSFUL STUDENTS SAY?

K MANI MONICA

SOFTWARE DEVELOPER

I am proud to say that I am a part of this highly reputed institution. The time spent here will always be appreciated and memorable throughout my life. The journey of four years has been a cake walk only because of the full support of my faculty and the other non-teaching staff of the college. I feel cherished and proud of being an alumnus of such a reputed and honourable institution. The knowledge and experience gained here is and will always be helpful.

K SUKESH REDDY

DATABASE ENGINEER

VITS has produced many notable alumni who are shining and serving in different sectors of society. Most of my friends who have graduated from here, particularly from the Computer Science department, are working with leading brands like IBM, TCS, Microsoft, etc. The college has provided a great platform considering the unstable and chaotic conditions in the valley. In the near future, I hope to see the college among the top colleges in India with stronger campus selection and highly advanced technologies for students to explore and compete in the worldwide market.

K HASEENA

SR.SOFTWARE DEVELOPER

Besides providing good education, VITS is very prudent towards its students in developing their interpersonal flexibility and physical ability. The well-known saying, "Enter to learn and leave to serve," has been an inspiration for me while being in college. VITS has played a significant role in shaping my identity as an engineer, and I am deeply grateful.

M GAYATHRI

SOFTWARE DEVELOPER

Looking back on my journey from a student to a professional engineer, I am grateful for the solid foundation and support I received from VITS. The education, mentorship, and opportunities provided by the college have not only equipped me with the technical skills and knowledge needed to succeed in the field of engineering but have also instilled in me a passion for lifelong learning and a commitment to making a difference in the world.
